Sizzix™ Making Tool - Paper Sculpting Kit (662225)
Glue
Pink Ink Pad
Water
Brush
White Cardstock
Adhesive Gems
Photograph

How to make:

1. Die-cut a piece of stencil film several times with the Stackable Geometrics die.
2. Die-cut your chosen sentiment from the Elle Lowercase set out of gray card.
3. Die-cut several flowers from the Origami Rabbit set out of white and gray cardstock.
4. Layer the stackable geometric stencil film to the middle right of the scrapbook page.
5. Apply the pink distress ink over the stencil film. Take the stencil film away to reveal the pattern underneath.
6. Mix the same distress ink with some water and using the brush, splatter this over the scrapbook page concentrating on the bottom left hand corner.
7. With the sculpting kit, add dimension to the flowers die-cuts.
8. Assemble your chosen photo, flowers and lettering onto the scrapbook page using glue.
9. Finally decorate with adhesive gems.
