## How to make:

1. Apply adhesive sheets to your chosen colors of card for Gertrude.
2. Die-cut and assemble the Gertrude die set in your chosen colors, with each piece, peeling away the adhesive backing. The instructions for assembling Gertrude can be found on the back of the die elements.
3. Fold a sheet of A4 yellow cardstock in half and cutting to your preferred size.
4. On cream card, print the sentiment as shown in the image.
5. Cut the shapes shown in the image using a paper trimmer. Ensure the printed sentiment is positioned to the right, where it will not be covered by Gertrude.
6. Layer the cut-out elements on the front of your card using PVA glue.
